“Quality is in the essence
a way of managing
the organization”

MPI DEHY FOODS (Mahuva Plastic Industries – Foods Division) was established by personnel having experience of more than 10 years dealing with the buyers across the globe, with an aim of meeting rising demand by providing supreme quality products.

One of the main promises of “MPI Dehy Foods” is to guarantee the quality of our product and, above all, the safety our clients deserve, implementing modern production and quality methods.

Why Us ?

- We are equipped with latest various types of mesh/mm machines for mincing/chopping/granulating onions in various sizes as per valuable customer's requirements.
- We are equipped with State-of-the-art technology, for example electronic color sorting, wind sifting, Skin removing, various next-generation magnets and metal checks guarantee a faultless final product.
- We have maintained special Manual sorting belts for further removal of black parts and roots from the products.

The consistent and efficient services provided by us have endeared us to our clients and has made us their preferred supplier. We are an agile organization to respond to you personally. Your satisfaction is the measure of our success.
